

DIY Customer Journey Guide for Dropline OD (Prototype RAG Knowledge Base)

This guide explains every customer-facing page of the prototype Dropline OD application. It is written for end users and is intended for use in a RAG chatbot. It does not include internal credit assessment, underwriting, eligibility algorithms or confidential banking processes.

Page 1 – Login

Purpose: Securely authenticate to access the Dropline OD application.

Fields

- Customer ID / User ID – Unique login identifier.
- Password – Your login password.
- CAPTCHA – Prevents automated login attempts.
- Login button – Verifies credentials and signs you in.
- Forgot Password – Start password reset if you cannot remember your password.

After Login

If a pre-approved offer exists, the application takes you to the welcome page.

Page 2 – Welcome

Purpose: Introduces the product and highlights its key benefits.

Shows: Paperless journey, Instant processing, Unsecured facility, Interest only on utilized amount.

Customer selects Current or Savings account to continue.

Page 3 – Offer

Purpose: Display the sanctioned offer.

Shows Application Number, Sanctioned Limit, Maximum Eligible Limit, Interest Rate (13.9% p.a.), Processing Fee (1.9%), Tenure (36 months), Facility Validity (1 year), Repayment Structure (Reducing Dropline).

The customer reviews the details and proceeds.

Page 4 – KFS & Acceptance

Purpose: Ensure the customer understands the product.

Customer can open the Key Fact Statement (KFS), read important terms, download documents, accept declarations and continue to e-sign.

Page 5 – Aadhaar & OTP

Purpose: Complete electronic acceptance.

Customer enters Aadhaar number (prototype), requests OTP, enters the OTP received on the registered email address (prototype flow), and completes e-sign.

Page 6 – Congratulations

Purpose: Confirm successful acceptance.

Displays sanctioned amount, tenure, interest rate, repayment structure and a button to open the dashboard.

Page 7 – Dashboard

Purpose: Help the customer manage the facility.

Displays sanctioned limit, available limit, utilized amount, accrued interest, days elapsed, next interest debit date, renewal status, repayment structure, download sanction letter, and close/repay facility options.

Button Guide

Login

Authenticates the customer.

Continue

Moves to the next step after successful completion.

Download KFS

Downloads the Key Fact Statement PDF.

Download Sanction Letter

Downloads the sanction letter PDF after activation.

Proceed to E-sign

Starts the electronic agreement process.

Verify OTP

Validates the one-time password.

Go to Dashboard

Opens the customer dashboard.

Renew Facility

Starts the renewal request when available.

Repay / Close Facility

Allows repayment and closure according to product rules.

Frequently Asked Questions

Q: Why am I seeing a pre-approved offer?

A: A pre-approved offer indicates that a credit facility has been made available to you. The chatbot cannot explain how the offer was generated.

Q: Why should I read the KFS?

A: The KFS summarizes the important commercial terms including pricing, tenure, fees and customer obligations.

Q: What is the application number?

A: It is the unique reference number for your Dropline OD application.

Q: Do I pay interest on the full sanctioned amount?

A: No. Interest is charged only on the amount you actually utilize.

Q: What is facility validity?

A: The period during which the sanctioned facility remains active before renewal review.

Q: What is reducing dropline?

A: The maximum amount available for withdrawal reduces according to the agreed repayment schedule.

Q: Can I download my documents?

A: Yes. The KFS and sanction letter can be downloaded from the application.

Q: What if OTP is not received?

A: Use the resend option or verify that your registered email address is correct.

Q: Can the chatbot tell me why my offer amount is this value?

A: No. Internal assessment and offer generation are confidential and not disclosed.

Customer-Friendly Tips

- Read every document before accepting.
- Keep your registered email accessible during OTP verification.
- Monitor the dashboard regularly to understand your available limit and accrued interest.
- Download and save the KFS and sanction letter for future reference.
- If a term is unfamiliar, ask the chatbot for a simple explanation.

Chatbot Scope

The chatbot can explain the website flow, product features, dashboard, KFS, sanction letter, interest methodology, repayment structure and general banking terminology. It will not answer questions about internal credit assessment, risk scoring, underwriting logic, customer eligibility calculations or other customers' information.
