

Dropline OD Prototype - Common Errors, Troubleshooting & Banking Glossary

This guide is intended for a prototype Dropline OD application. It explains common issues customers may face while using the application and provides a simple banking glossary. It is suitable for use as a Retrieval-Augmented Generation (RAG) knowledge source. It does not include internal underwriting, credit assessment, or confidential banking processes.

Common Errors & Troubleshooting

1. Unable to log in

Verify Customer ID, password and CAPTCHA. Reset your password if needed.

2. Forgot password

Use the 'Forgot Password' option and follow the guided reset process.

3. Incorrect password

Check for typing errors and Caps Lock. Retry carefully.

4. CAPTCHA not accepted

Refresh the CAPTCHA and enter the new code.

5. Session expired

Log in again to continue.

6. Offer page not loading

Refresh the page and check your internet connection.

7. Continue button disabled

Review mandatory fields or declarations before proceeding.

8. KFS not opening

Try downloading again or refresh the page.

9. OTP not received

Check spam folder, wait a few minutes and use 'Resend OTP'.

10. OTP expired

Request a fresh OTP.

11. OTP invalid

Ensure you entered the latest OTP.

12. E-sign interrupted

Restart the e-sign process.

13. Dashboard not updating

Refresh the page or sign in again.

14. Unable to download sanction letter

Ensure the facility is activated, then retry.

15. Renewal option unavailable

Check if the facility is within its renewal window.

16. Repay/Close option unavailable

Verify that the product conditions allow closure at this stage.

17. Interest seems higher

Review the utilised amount and accrued interest explanation.

18. Available limit reduced

This may be due to utilisation and/or the reducing dropline schedule.

19. Browser compatibility issue

Use an updated browser.

20. Slow performance

Check network connectivity and retry.

Banking Glossary (100 Terms)

1. Account: Simple banking term used in the application. The chatbot can explain 'Account' in the context of the Dropline OD journey.

2. Accrued Interest: Interest accumulated up to the latest calculation date.

3. Activation: Simple banking term used in the application. The chatbot can explain 'Activation' in the context of the Dropline OD journey.

4. Agreement: Simple banking term used in the application. The chatbot can explain 'Agreement' in the context of the Dropline OD journey.

5. Annual Interest Rate: Simple banking term used in the application. The chatbot can explain 'Annual Interest Rate' in the context of the Dropline OD journey.

6. Application Number: Simple banking term used in the application. The chatbot can explain 'Application Number' in the context of the Dropline OD journey.

7. Available Limit: Amount currently available for withdrawal.

8. Balance: Simple banking term used in the application. The chatbot can explain 'Balance' in the context of the Dropline OD journey.

9. Bank Statement: Simple banking term used in the application. The chatbot can explain 'Bank Statement' in the context of the Dropline OD journey.

10. Borrower: Simple banking term used in the application. The chatbot can explain 'Borrower' in the context of the Dropline OD journey.

11. Business Account: Simple banking term used in the application. The chatbot can explain 'Business Account' in the context of the Dropline OD journey.

12. Business Day: Simple banking term used in the application. The chatbot can explain 'Business Day' in the context of the Dropline OD journey.

13. CAPTCHA: Simple banking term used in the application. The chatbot can explain 'CAPTCHA' in the context of the Dropline OD journey.

14. Cash Flow: Simple banking term used in the application. The chatbot can explain 'Cash Flow' in the context of the Dropline OD journey.

15. Charges: Simple banking term used in the application. The chatbot can explain 'Charges' in the context of the Dropline OD journey.

16. Closure: Simple banking term used in the application. The chatbot can explain 'Closure' in the context of the Dropline OD journey.

17. Collateral: Simple banking term used in the application. The chatbot can explain 'Collateral' in the context of the Dropline OD journey.

18. Credit: Simple banking term used in the application. The chatbot can explain 'Credit' in the context of the Dropline OD journey.

19. Credit Facility: Simple banking term used in the application. The chatbot can explain 'Credit Facility' in the context of the Dropline OD journey.

20. Current Account: Simple banking term used in the application. The chatbot can explain 'Current Account' in the context of the Dropline OD journey.

- 21. Customer ID:** Simple banking term used in the application. The chatbot can explain 'Customer ID' in the context of the Dropline OD journey.
- 22. Dashboard:** Simple banking term used in the application. The chatbot can explain 'Dashboard' in the context of the Dropline OD journey.
- 23. Debit:** Simple banking term used in the application. The chatbot can explain 'Debit' in the context of the Dropline OD journey.
- 24. Declaration:** Simple banking term used in the application. The chatbot can explain 'Declaration' in the context of the Dropline OD journey.
- 25. Default:** Simple banking term used in the application. The chatbot can explain 'Default' in the context of the Dropline OD journey.
- 26. Digital Banking:** Simple banking term used in the application. The chatbot can explain 'Digital Banking' in the context of the Dropline OD journey.
- 27. Digital Signature:** Simple banking term used in the application. The chatbot can explain 'Digital Signature' in the context of the Dropline OD journey.
- 28. Disbursement:** Simple banking term used in the application. The chatbot can explain 'Disbursement' in the context of the Dropline OD journey.
- 29. Document:** Simple banking term used in the application. The chatbot can explain 'Document' in the context of the Dropline OD journey.
- 30. Drawing Limit:** Simple banking term used in the application. The chatbot can explain 'Drawing Limit' in the context of the Dropline OD journey.
- 31. Dropline:** A structure where the maximum drawable limit reduces over time.
- 32. Due Date:** Simple banking term used in the application. The chatbot can explain 'Due Date' in the context of the Dropline OD journey.
- 33. E-sign:** Electronic acceptance of the agreement.
- 34. Eligibility:** Simple banking term used in the application. The chatbot can explain 'Eligibility' in the context of the Dropline OD journey.
- 35. Email OTP:** Simple banking term used in the application. The chatbot can explain 'Email OTP' in the context of the Dropline OD journey.
- 36. EMI:** Simple banking term used in the application. The chatbot can explain 'EMI' in the context of the Dropline OD journey.
- 37. Facility:** Simple banking term used in the application. The chatbot can explain 'Facility' in the context of the Dropline OD journey.
- 38. Facility Validity:** Simple banking term used in the application. The chatbot can explain 'Facility Validity' in the context of the Dropline OD journey.
- 39. FAQ:** Simple banking term used in the application. The chatbot can explain 'FAQ' in the context of the Dropline OD journey.
- 40. Fee:** Simple banking term used in the application. The chatbot can explain 'Fee' in the context of the Dropline OD journey.
- 41. Financial Year:** Simple banking term used in the application. The chatbot can explain 'Financial Year' in the context of the Dropline OD journey.
- 42. Fixed Interest Rate:** Simple banking term used in the application. The chatbot can explain 'Fixed Interest Rate' in the context of the Dropline OD journey.
- 43. Floating Rate:** Simple banking term used in the application. The chatbot can explain 'Floating Rate' in the context of the Dropline OD journey.

- 44. Funds:** Simple banking term used in the application. The chatbot can explain 'Funds' in the context of the Dropline OD journey.
- 45. Grace Period:** Simple banking term used in the application. The chatbot can explain 'Grace Period' in the context of the Dropline OD journey.
- 46. Interest:** Simple banking term used in the application. The chatbot can explain 'Interest' in the context of the Dropline OD journey.
- 47. Interest Accrued:** Simple banking term used in the application. The chatbot can explain 'Interest Accrued' in the context of the Dropline OD journey.
- 48. Interest Debit:** Simple banking term used in the application. The chatbot can explain 'Interest Debit' in the context of the Dropline OD journey.
- 49. KFS:** Key Fact Statement summarising the main commercial terms.
- 50. Know Your Customer (KYC):** Simple banking term used in the application. The chatbot can explain 'Know Your Customer (KYC)' in the context of the Dropline OD journey.
- 51. Language Selection:** Simple banking term used in the application. The chatbot can explain 'Language Selection' in the context of the Dropline OD journey.
- 52. Limit:** Simple banking term used in the application. The chatbot can explain 'Limit' in the context of the Dropline OD journey.
- 53. Login:** Simple banking term used in the application. The chatbot can explain 'Login' in the context of the Dropline OD journey.
- 54. Maximum Limit:** Simple banking term used in the application. The chatbot can explain 'Maximum Limit' in the context of the Dropline OD journey.
- 55. MITC:** Most Important Terms & Conditions.
- 56. Mobile Number:** Simple banking term used in the application. The chatbot can explain 'Mobile Number' in the context of the Dropline OD journey.
- 57. Monthly Reduction:** Simple banking term used in the application. The chatbot can explain 'Monthly Reduction' in the context of the Dropline OD journey.
- 58. Notification:** Simple banking term used in the application. The chatbot can explain 'Notification' in the context of the Dropline OD journey.
- 59. Offer:** Simple banking term used in the application. The chatbot can explain 'Offer' in the context of the Dropline OD journey.
- 60. Offer Acceptance:** Simple banking term used in the application. The chatbot can explain 'Offer Acceptance' in the context of the Dropline OD journey.
- 61. Outstanding Amount:** Simple banking term used in the application. The chatbot can explain 'Outstanding Amount' in the context of the Dropline OD journey.
- 62. Outstanding Balance:** Simple banking term used in the application. The chatbot can explain 'Outstanding Balance' in the context of the Dropline OD journey.
- 63. Overdraft:** Simple banking term used in the application. The chatbot can explain 'Overdraft' in the context of the Dropline OD journey.
- 64. Password:** Simple banking term used in the application. The chatbot can explain 'Password' in the context of the Dropline OD journey.
- 65. Payment:** Simple banking term used in the application. The chatbot can explain 'Payment' in the context of the Dropline OD journey.
- 66. PDF:** Simple banking term used in the application. The chatbot can explain 'PDF' in the context of the Dropline OD journey.

- 67. Pre-approved Offer:** Simple banking term used in the application. The chatbot can explain 'Pre-approved Offer' in the context of the Dropline OD journey.
- 68. Processing Fee:** One-time fee charged for setting up the facility.
- 69. Product:** Simple banking term used in the application. The chatbot can explain 'Product' in the context of the Dropline OD journey.
- 70. Prototype:** Simple banking term used in the application. The chatbot can explain 'Prototype' in the context of the Dropline OD journey.
- 71. Registered Email:** Simple banking term used in the application. The chatbot can explain 'Registered Email' in the context of the Dropline OD journey.
- 72. Repayment:** Simple banking term used in the application. The chatbot can explain 'Repayment' in the context of the Dropline OD journey.
- 73. Repayment Structure:** Simple banking term used in the application. The chatbot can explain 'Repayment Structure' in the context of the Dropline OD journey.
- 74. Renewal:** Simple banking term used in the application. The chatbot can explain 'Renewal' in the context of the Dropline OD journey.
- 75. Renewal Reminder:** Simple banking term used in the application. The chatbot can explain 'Renewal Reminder' in the context of the Dropline OD journey.
- 76. Repay:** Simple banking term used in the application. The chatbot can explain 'Repay' in the context of the Dropline OD journey.
- 77. Risk:** Simple banking term used in the application. The chatbot can explain 'Risk' in the context of the Dropline OD journey.
- 78. Sanction:** Simple banking term used in the application. The chatbot can explain 'Sanction' in the context of the Dropline OD journey.
- 79. Sanction Letter:** Simple banking term used in the application. The chatbot can explain 'Sanction Letter' in the context of the Dropline OD journey.
- 80. Sanctioned Limit:** Maximum approved amount under the facility.
- 81. Security:** Simple banking term used in the application. The chatbot can explain 'Security' in the context of the Dropline OD journey.
- 82. Session:** Simple banking term used in the application. The chatbot can explain 'Session' in the context of the Dropline OD journey.
- 83. SMS:** Simple banking term used in the application. The chatbot can explain 'SMS' in the context of the Dropline OD journey.
- 84. Statement:** Simple banking term used in the application. The chatbot can explain 'Statement' in the context of the Dropline OD journey.
- 85. Tenure:** Overall duration of the facility.
- 86. Terms & Conditions:** Simple banking term used in the application. The chatbot can explain 'Terms & Conditions' in the context of the Dropline OD journey.
- 87. Transaction:** Simple banking term used in the application. The chatbot can explain 'Transaction' in the context of the Dropline OD journey.
- 88. Two-factor Authentication:** Simple banking term used in the application. The chatbot can explain 'Two-factor Authentication' in the context of the Dropline OD journey.
- 89. Unsecured Facility:** Simple banking term used in the application. The chatbot can explain 'Unsecured Facility' in the context of the Dropline OD journey.
- 90. Update Contact Details:** Simple banking term used in the application. The chatbot can explain 'Update Contact Details' in the context of the Dropline OD journey.

91. Utilised Amount: Amount already used from the facility.

92. User ID: Simple banking term used in the application. The chatbot can explain 'User ID' in the context of the Dropline OD journey.

93. Validity: Period before renewal review.

94. Verification: Simple banking term used in the application. The chatbot can explain 'Verification' in the context of the Dropline OD journey.

95. Working Capital: Funds used for day-to-day business operations.

96. Withdrawal: Simple banking term used in the application. The chatbot can explain 'Withdrawal' in the context of the Dropline OD journey.

97. Dashboard Card: Simple banking term used in the application. The chatbot can explain 'Dashboard Card' in the context of the Dropline OD journey.

98. Interest Rate: Simple banking term used in the application. The chatbot can explain 'Interest Rate' in the context of the Dropline OD journey.

99. Support: Simple banking term used in the application. The chatbot can explain 'Support' in the context of the Dropline OD journey.

100. Chatbot: Simple banking term used in the application. The chatbot can explain 'Chatbot' in the context of the Dropline OD journey.
